

Before ...

The screenshot shows the PyCharm IDE interface. The Project view on the left displays a hierarchy starting with 'kurs', which contains subfolders 'lab_4' through 'lab_12'. The main editor area is empty. The Terminal window at the bottom shows the command 'flake8 kurs\lab_9' and its output, which lists various linting errors such as 'line too long' (E501) and 'blank line at end of file' (W391) across multiple files in the 'kurs\lab_9' directory.

```
D:\django\uvic>flake8 kurs\lab_9
kurs\lab_9\cargo_delivery\__init__.py:6:80: E501 line too long (87 > 79 characters)
kurs\lab_9\cargo_delivery\__init__.py:7:1: W391 blank line at end of file
kurs\lab_9\cargo_delivery\cargodelivery.py:4:80: E501 line too long (93 > 79 characters)
kurs\lab_9\cargo_delivery\cargodelivery.py:9:1: W391 blank line at end of file
kurs\lab_9\cargo_delivery\cargos\cargo.py:13:1: W391 blank line at end of file
kurs\lab_9\cargo_delivery\cargos\products\product.py:14:30: F541 f-string is missing placeholders
kurs\lab_9\cargo_delivery\cargos\products\product.py:25:80: E501 line too long (113 > 79 characters)
kurs\lab_9\cargo_delivery\cargos\products\product.py:27:80: E501 line too long (112 > 79 characters)
kurs\lab_9\cargo_delivery\cargos\products\product.py:30:1: W391 blank line at end of file
kurs\lab_9\cargo_delivery\trucks\truck.py:15:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:19:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:23:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:27:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\lab_9.py:15:80: E501 line too long (88 > 79 characters)
kurs\lab_9\lab_9.py:16:80: E501 line too long (87 > 79 characters)
kurs\lab_9\lab_9.py:25:80: E501 line too long (85 > 79 characters)
kurs\lab_9\lab_9.py:26:80: E501 line too long (107 > 79 characters)
```

After ...

The screenshot shows the PyCharm IDE interface after a reorganization. The Project view on the left now shows a more structured hierarchy: 'kurs' contains 'lab_8' and 'lab_9'. 'lab_9' contains subfolders 'cargodelivery' and 'trucks'. 'cargodelivery' contains '__init__.py' and 'cargodelivery.py'. 'trucks' contains '__init__.py' and 'truck.py'. The main editor area is empty. The Terminal window at the bottom shows the command 'flake8 kurs\lab_9' and its output, which lists various linting errors such as 'line too long' (E501) and 'blank line at end of file' (W391) across multiple files in the 'kurs\lab_9' directory.

```
D:\django\uvic>flake8 kurs\lab_9
kurs\lab_9\cargo_delivery\cargos\products\product.py:30:1: W391 blank line at end of file
kurs\lab_9\cargo_delivery\trucks\truck.py:15:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:19:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:23:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
kurs\lab_9\cargo_delivery\trucks\truck.py:27:9: F901 'raise NotImplemented' should be 'raise NotImplementedError'
```
